CANSKATE PROGRESS REPORTS

New to the Canskate program this year is progress reports. These reports will be handed out in November and February, and will show the progress that your child/ren are making. The reports will list all the skill elements necessary to pass the badge and move up to the next stage. If your child/ren have mastered a skill, that skill will be checked off on the list. If a skill is blank that means that the skater has yet to demonstrate that skill. We hope these reports will help the parents understand how your child/ren is progressing in the program.
